Who We Are

In 1963, Thomas Malave Sr. founded our company, a door-to-door home-delivery and retail milk route in Queens, New York. Although the company has grown well beyond the founder's expectations, it is still a family business managed by Mr. Malave's sons. The Malave brothers have diversified Bartlett's product line and built it into a successful company that is continuing to grow.

Serving the New York, New Jersey, Connecticut and Pennsylvania area, Bartlett Dairy specializes in food service accounts such as schools, hospitals, hotels, correctional facilities and restaurants in addition to supermarkets and other retail accounts.

Milk and milk products are still our primary business. All of the raw milk used by Bartlett Dairy comes from local dairy farms in the tristate region.

Our extensive inventory comprised of over 1000 items, include soup, fresh baked bread and rolls, pastries, and juice.

With a growing staff of 350 employees, we operate over 100 trucks and 3 central distribution centers that guarantee next day delivery on most orders.

Even though such high-volume clients trust our service and products, we still understand the needs of small businesses and pay special attention to insure that we meet those needs.

Bartlett Dairy Inc.
